EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/region8/gold-king-mine-release-emergency-response>  
Regular updates will be posted as they are available.

Submitted on 08/10/2015 4:23PM  
Submitted values are:

Your Name: **Citizen Name/Ex. 6**  
Email Address: **Personal Email/Ex. 6**  
Comments:

Greetings; Because of long time interest in the area, I ask as to whether any testing has been done for the presence of 1) Selenium, 2) Uranium, and c) Vanadium, as ppb in solution.  
Thanks so much, and good luck !
